REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a system for removing a cover from a medical instrument comprising a flexible cover configured to cover at least a portion of a medical instrument; an insertion element coupled proximate a first end of the flexible cover; a pair of substantially parallel perforations formed in the insertion element; and a portion of the insertion element between the pair of substantially parallel perforations are removable from the insertion element and a portion of the flexible cover is removable from the flexible cover when a force is applied to a portion of the insertion element between the pair of substantially parallel perforations. As pointed out in the arguments by Applicant, Kim does not teach or suggest an insertion element between a pair of substantially parallel perforations as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
